

A PAIR of PEARS and an ORANGE

How to play Noughts & Crosses

- You are X; your friend is O.
- The first player to get three of their marks in a row (down, across, or diagonally) is the winner.

Now try playing with three players.

- Your two friends both play O.

Does the game still work? How do you feel?

A *PAIR* of *PEARS* and an *ORANGE*
